## Tetiana Tkachova

has successfully completed the online Specialization

# Mastering Backend Development with Node.js

This is to certify that the learner has successfully completed the Backend Development with Node.js Specialization, covering Node.js fundamentals, REST API development with Express, and production-grade backend engineering. The learner has demonstrated the ability to build server-side applications with Node.js, design RESTful APIs using Express and middleware, integrate MongoDB through Mongoose, and implement secure, production-ready systems with JWT authentication, logging, testing, and deployment. Upon completing all requirements, the learner is recognized as proficient in designing, securing, testing, and deploying complete backend applications with Node.js.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
